Professional Summary

Passionate Frontend Developer with 1.5+ years of experience in building responsive, high-performance web applications using Angular, TypeScript, HTML, CSS, and Bootstrap. Proficient in REST API integration, reusable component development, and hybrid mobile app development using Ionic & Capacitor. Experienced in modernizing legacy Angular applications and customizing open-source libraries. Strong collaborator with a solid understanding of Git workflows and UI/UX best practices.

Projects

1. Vetting Web App

Role: Frontend Developer

Tech Stack: Angular 18, Bootstrap, RxJS, ngx-bootstrap, Git, REST APIs

Description:

A responsive web application for candidate vetting, featuring multi-step forms, dynamic validations, and API integrations. Migrated from Angular 13 to 18, replaced outdated Flex Layout with Bootstrap, and implemented reusable components across the app.

2. Hybrid Mobile App with Capacitor & Ionic

Role: Frontend Developer

Tech Stack: Angular, Ionic, Capacitor, Bootstrap, REST APIs

Description:

Built a hybrid mobile application using Ionic & Capacitor for cross-platform support. Integrated REST APIs, created reusable UI components, and implemented push notification functionality.

3. Qaida App

Role: Frontend Developer

Tech Stack: Angular, Ionic, Capacitor, SCSS, Bootstrap

Description:

Designed and developed a multilingual hybrid mobile application for learning basic letters and pronunciation in Arabic, Hindi, English, and Urdu. The app includes audio support, interactive UI for children, and language-specific learning screens. Optimized for performance across Android using Capacitor, with a focus on accessibility and ease of use for early learners.

Education

Bachelor of Computer Applications (BCA)

Indira Gandhi National Open University, Delhi

Jan 2021 – Jan 2024 **Score:** 63.5%

Courses & Certifications

- MEAN Stack Development with Angular & Node.js – Udemy
-

Skills

Frontend Technologies: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

UI Frameworks & Libraries: Bootstrap, Angular Material, ngx-bootstrap, Tailwind CSS

Form Handling: Reactive Forms, Template-driven Forms

Mobile App Development: Ionic Framework, Capacitor

API Integration: RESTful APIs

Version Control: Git, GitHub

Reusable Components: hu-input, custom Angular components

Library Customization: ngx-mat-intl-tel-input (customized for country code, flag, and validation)

Build & Deployment: Angular CLI

Other Tools: Firebase, Postman, VS Code

AI Tools: GitHub Copilot, GitHub Agent, ChatGPT, DeepSeek, Custom Model Integration

Personal Details

Date of Birth: 17 Apr, 2002

Father's Name: Izhar Ali

Nationality: Indian

Languages Known: English, Hindi

Declaration

I consider myself familiar with the field of IT and am confident in my ability to work effectively in a team. I hereby declare that all the above statements are true to the best of my knowledge and belief.
